[Summer School 2018: Climate Change 2018; Health Economics; Particles, Strings and Cosmology]

[Higher Education and Research in Germany and Hamburg]

[Course description]

Title	Higher Education and Research in Germany and Hamburg
Lecturer	Prof. Dr. Ingenuin Gasser
Course duration in academic hours	4h
Credits (ECTS)	up to 2 (in combination with courses 1b, 1c, 1d and 1e)
Notes	-

Course description

The participants of the summer school should learn a few basis facts about (1) the German higher education system, (2) Universität Hamburg and (3) Hamburg's research landscape. This is to give an orientation in this presumably new educational and scientific environment.

Although we believe that the basic rules in science are common all over the world, we would also like to discuss basic facts on Good Scientific Practice as a basis of every activity in science and therefore fundamental for every kind of progress in science.

Notice: The program is subject to change.
