one of the city’s largest hospitals. The hospital admits roughly 90,000 inpatients and 127,000 emergency cases. With approximately 1,730 beds, the UKE is also the largest tertiary hospital in northern Germany. Its clinical facilities incorporate more than eighty interdisciplinary clinics, from orthopedics and traumatology to cardiology, urology, nephrology, and the surrounding region with the expertise to perform experimental surgeries and clinical research. The Medical Skills Training Center (MediTreFF), which houses models and computer-controlled simulators for patient training, provides students with the opportunity to study medicine in a completely new way.

COMMENSIVE HEALTH CARE
As a university center for cutting-edge medicine, the UKE incorporates more than sixty high-tech clinics, polyclinics, and institutes. It is the only hospital in the state and the surrounding region with the expertise to perform preventive care and surgery. It is a highly specialized facility and the largest hospital in northern Germany. The hospital admits roughly 90,000 inpatients annually. It also treats 250,000 outpatients, of whom 125,000 are emergency cases.

Research provides researchers with an excellent working environment. Further research initiatives are currently underway. Outstanding Teaching: The UKE provides practical and patient-oriented training to roughly 6,000 doctors, primarily a hospital medicine and the training. The integrated medical degree program (MD) lays the foundation for further training. Instruction in patient care takes place in the state-of-the-art New Clinic while the new Medical Education Campus provides optimal learning and teaching conditions. The Medical Skills Training Center (MediTreFF), which houses models and computer-controlled simulators for patient training, provides students with the opportunity to study medicine in a completely new way.

UNIVERSITÄT HAMBURG: TO RESEARCH, TO TEACH, TO EDUCATE AND FORM

UNIVERSITÄT HAMBURG is one of the largest higher education institutions in Germany. With roughly 44,000 students, including almost 5,000 international students from over 130 countries, Universität Hamburg was granted the status of a University of Excellence as part of the Excellence Strategy of the Federal and State Governments, Universität Hamburg has been extraordinarily successful in the competition for top-level university research funding. Four clusters of excellence were established as a result of the successful competition. As part of the Excellence Strategy of the Federal and State Governments, Universität Hamburg has been granted clusters of excellence for 4 core research areas: CUI: Advanced Imaging Technologies, the Hamburg Cliodynamics, and Quantum Change, and Society (CLiCCS) (climate research), Understanding Written Artefacts (manuscript cultures), and Quantum Cosmology. Additionally, Universität Hamburg has been granted the status of a University of Excellence for its role as a flagship university.

TO RESEARCH, TO TEACH, TO EDUCATE AND FORM

AN INTERNATIONAL AND SUSTAINABLE APPROACH TO STUDY

Studying at Universität Hamburg means sustainable academic study. Universität Hamburg offers the sustainable study concept, characterized by a focus on sustainability. The principle of sustainability is not just a subject of study but a basis of teaching and research.

RESEARCH

UNIVERSITÄT HAMBURG is northern Germany's largest and most diverse center of research. It is committed to researching sustainability and specifically promotes research projects on sustainability.

UNIVERSITÄT HAMBURG supports special aid for young researchers. In addition to existing doctoral programs in the fields of Health Economics; Neurosciences; Law in Global Contexts; Integrated Climate System Sciences, and Peace and Conflict Studies, Integrated Climate System Sciences, and Peace and Conflict Studies, Universität Hamburg's international network further enables students to gain experience abroad at over 300 universities located in more than 50 countries. The University's research profile also includes its 5 emerging excellence centers: CUI: Advanced Imaging Technologies, the Hamburg Cliodynamics, and Quantum Change, and Society (CLiCCS) (climate research), Understanding Written Artefacts (manuscript cultures), and Quantum Cosmology. Additionally, Universität Hamburg has been granted the status of a University of Excellence for its role as a flagship university.
