As a University for sustainability, we put human resources development and especially the development and advancement of our early career researchers at the fore of our strategic endeavors. By strengthening the tenure-track professorship, Universität Hamburg has introduced a new career opportunity for early career researchers. Junior professorships are aimed at researchers in the early stages of their career, within four years after completion of doctoral studies.

Due to the success of the tenure-track program run by the Ministry for Education and Research and to strengthen the research area “Mechanisms of Change”, Universität Hamburg invites applications for the following tenure-track professorship:
