

Faculty/Department: Psychology, Human Movement
Seminar/Institute: Methods and Statistics in Psychology

Universität Hamburg invites applications for a Research Associate in accordance with Section 28 subsection 1 of the Hamburg higher education act (Hamburgisches Hochschulgesetz, HmbHG). The position commences on 01.10.2018.

It is remunerated at the salary level TV-L 13 and calls for 50% of standard work hours per week *, with an optional increase to 65% for the first two years.

The fixed-term nature of this contract is based upon Section 2 of the academic fixed-term labor contract act (Wissenschaftszeitvertragsgesetz, WissZeitVG). The initial fixed term is three years.

The University aims to increase the number of women in research and teaching and explicitly encourages women to apply. Equally qualified female applicants will receive preference in accordance with the Hamburg act on gender equality (Hamburgisches Gleichstellungsgesetz, HmbGleiG).

Responsibilities:

Associates will be expected primarily to teach and conduct research. The associate will also have the opportunity to pursue further academic qualifications, in particular a doctoral dissertation. At least one-third of set working hours will be made available for the associate's own academic work.

Specific Duties:

Researching the consequences of selection effects and (statistical) model misspecification with respect to the estimation of effects in psychological research (Type S and Type M errors), using theoretical arguments and/or simulations. Teaching courses in the field of statistics. The teaching commitment is two lectures per week.

Requirements:

A university degree in a relevant field, preferably in psychology, statistics, mathematics or computer science. Further criteria are:

- Outstanding knowledge of statistics and R
- Outstanding knowledge of English
- Above-average commitment
- Excellent communication skills
- Teamwork capacity and reliability

* Full-time positions currently comprise 39 hours per week.
