What documents do I need to extend my residence permit?
What sort of documents can I use as proof that I can finance my studies?
What do I need to be aware of when changing my subject or doing an internship?

Life sometimes brings personal, financial, or study-related difficulties.

Whether at the beginning of your studies, or after graduating and trying to step beyond student life, international students often face a range of difficulties.

It is important that you get information and support to deal with problems as quickly as possible.

You are always welcome to come to us for advice!
