Buddhist Studies M.A.

Application Information

**Application period:** 15 February – 31 March (winter term)

**Semester start:** October 1st (winter term) and April 1st (summer term)

**Language(s) of instruction:** English

Introduction

**Goals and Content**

The International Master Program in Buddhist Studies consists of several study tracks. The regional foci are India, Tibet, China, Japan, and Thailand. This International Master is aimed at students with a solid philological background in one of the above-mentioned regional specializations. We consider competence in the language(s) of at least one of these regions a crucial factor. Generally, our courses work with primary sources which require philological training.

Courses with regional specialization vary year by year and deal with topics related, for instance, to intellectual history or Buddhist literature. We consider Buddhism to be one factor which constitutes and shapes culture and society as well as the intellectual and religious history of a particular region. In order to understand it both historically and systematically, we study a Buddhist tradition in its regional developments and specificities, the ways Buddhist traditions have interacted with other sectors of a given society, and how Buddhist thinkers in a particular region have been influenced by other religious systems and socio-political settings.

In each semester of the first year you will further join the seminar "Topics in Buddhist Studies," the focus of which lies on systematic issues that may be observed across cultural and regional differences. Such are particularly important for Buddhist Studies as a discipline. This course brings together graduate students in Buddhist Studies from all regional specializations at the Asien-Afrika-Institut. "Topics in Buddhist Studies" deals, for instance, with issues of Buddhist modernity (e.g. Socially Engaged Buddhism, Buddhism in Europe, or the tradition’s dialogue with other religions) as well as with conceptual and philosophical questions (karma, consciousness, etc.).

Participating in this study program will train your skills in dealing with Buddhist primary sources and advance your competence in cross-cultural and interdisciplinary communication with your fellow students. It will prepare your academic career in terms of joining international post-M.A. graduate schools which require thorough intimacy with Buddhist primary sources on the one hand and interdisciplinary research skills on the other.
Specific Characteristics

- Generally, one semester at a partner university outside Germany.
- Courses in the study track India, China, Tibet and Thailand are held in English. In the Japan study track, German language proficiency is required as well.
