What is a Language Tandem?

When two students meet to teach each other their native languages. For example, if your native language is Spanish and you would like to improve your German, we match you up with a tandem partner whose native language is German and who would like to learn Spanish!

It goes without saying that tandem partners also learn about one another’s native countries, but the main goal is improving language skills. Both participants should have sound basic knowledge of the foreign language and both languages should be practiced equally (e.g., one hour per language).

The language tandem is an opportunity to put your language skills into practice as well as to meet new people and find out more about their country and culture.
Thank you for your attention!

Time for questions 😊
