As a University of Excellence, Universität Hamburg is one of the strongest research universities in Germany. As a flagship university in the greater Hamburg region, it nurtures innovative, cooperative contacts to partners within and outside academia. It also provides and promotes sustainable education, knowledge, and knowledge exchange locally, nationally, and internationally.

The Faculty of Mathematics, Informatics and Natural Sciences, Department of Informatics, Signal Processing (SP) invites applications for a

**RESEARCH ASSOCIATE (POSTDOC) DATA SCIENCE**

- SALARY LEVEL 13/14 TV-L -

The position in accordance with Section 28 subsection 2 of the Hamburg higher education act (Hamburgisches Hochschulgesetz, HmbHG) commences on the earliest possible date.

This is a fixed-term contract in accordance with Section 2 of the academic fixed-term labor contract act (Wissenschaftszeitvertragsgesetz, WissZeitVG). The initial fixed term is three years. The contract provides for a maximum extension of up to three years depending on the associate’s achievements during the first stage. Providing that a position is available and that requirements have been fulfilled, the associate may apply for temporary civil servant status in accordance with Section 28 subsection 2 HmbHG. The position is full-time and comprises 39 hours per week (40 for civil servants). This position is also suitable for part time employment.

**RESPONSIBILITIES:**

Duties include teaching and research in the respective department or institute. Research associates may also pursue independent research and further academic qualifications as well as acquire teaching experience. These duties are intended to promote academic achievement. Therefore, at least one-third of set working hours will be made available for the associate’s own academic work.

**SPECIFIC DUTIES:**

The general focus of the Signal Processing (SP) research group is on developing novel data science methods for processing speech and multimodal signals. Applications include speech communication devices such as hearing aids and voice-controlled assistants. The postdoctoral researcher will do research on novel data science methods applied to speech and multimodal signals and strengthen our collaboration within the DASHH - Data Science in Hamburg Helmholtz Graduate School. Furthermore the postdoctoral researcher will help establishing degree programs in the data science context.
Typical tasks of a postdoctoral researcher include developing new concepts, supervising students, writing scientific publications, and traveling to conferences and workshops to present the work. The position includes the responsibility to teach 4 hours/week in the computer science department. We are interested in a highly motivated person who is interested in working with us on cutting edge research in a pleasant working atmosphere.

**REQUIREMENTS:**

A university degree in a relevant subject plus doctorate. Examples are Computer Science, Data Science, and Electrical Engineering. Good knowledge of and experience with modern data science and machine learning techniques is required as well as good programming skills in Python or similar. Knowledge of speech processing and statistics is helpful. Fluent English, spoken and written, and good communication skills are mandatory. Knowledge of German is helpful; we expect the willingness to learn German for non-native German speakers.

The Free and Hanseatic City of Hamburg promotes equal opportunity. As women are currently underrepresented in this job category at Universität Hamburg according to the evaluation conducted under the Hamburg act on gender equality (Hamburgisches Gleichstellungsgesetz, HambGleiG), we encourage women to apply for this position. Equally qualified and suitable female applicants will receive preference.

Qualified disabled candidates or applicants with equivalent status receive preference in the application process.

For further information, please contact Timo Gerkmann (timo.gerkmann@uni-hamburg.de) or consult our website at http://uhh.de/inf-sp.

Applications should include a cover letter, a tabular curriculum vitae, and copies of degree certificate(s). Please send applications by 04.11.2020 to: sp-office@informatik.uni-hamburg.de in a single PDF document. Please start the subject of your E-Mail with [APPLICATION Postdoc].

Please do not submit original documents as we are not able to return them. Any documents submitted will be destroyed after the application process has concluded.
